PEAR SHAPED RATCHETS

Wright Tool 1/2" drive drop-forged ratchets are the workhorses of the industry. Compact round and pear shaped heads, short handle arc swings, easily changed kits, choice of handle style and problem solving designs. The ratchets are engineered to balance within normal range of sockets to minimize the "nose heavy feeling." Pear shaped ratchets are so compact they are the same head size as most 3/8" drive ratchets.
